PROJECTS

Investment Portfolio Tracker [Here](#) — Jan 22

Group Project

A web-based app to track investments for thousands of cryptocurrency and stock assets using real-time data, as well as displaying real past data for up to 3 months.

- Helped build the app's dashboard that shows the chart data and user assets.

- Built the newsfeed which fetches real articles posted in the last 24 hours about specific assets of the user's choice

React.js, Express.js, PostgreSQL, Node, HTML5, CSS3, Axios

E-Commerce Website-Vinyl Fresh [Here](#) — Dec 21-Jan 22

An e-commerce application for users to browse and buy vinyl records based on their favourite albums.

React.js, HTML5, CSS3 JavaScript

Scheduling App [Here](#) — Nov 21-Jan 22

A scheduling app where users can book schedules with interviewers on different days at different time slots.

React.js, HTML5, CSS3, JavaScript, Axios, Storybook, SASS, Express, Jest, Cypress

Client Portfolio Site [Here](#) — Jan 22

An e-portfolio built to showcase clients' skills and projects in a clean and streamlined manner.

HTML5, CSS3

EXPERIENCE

Freelance Digital Marketing, Remote — Apr 20-Sept 21

Created and managed Facebook Ads and email marketing campaigns for Small-Mid Sized E-Commerce businesses.

Communicated/consulted with business owners about the best plan of action for their growth.

Researched customer psychology and the best ways to target customer desires/pain points for conversion.

Created attractive website layouts with website builders like Elementor and Shogun (before Bootcamp).
